Things Sketch Relations.

The core entities → Users, Courses, Sections, Enrollments & Grades.

AUTH DB

ERP DB

Flow sketches.

① Instructor Grade Entry

Component	Actions by Instructor	Background.
UI	① Views the list of assigned sections. ↓	[API calls service to fetch section, Access checks]
UI	② Selects the specific section & clicks on "View Gradebook" ↓	
UI	③ Enter scores for student's assessment component ↓	[UI validates input, score is staged in the UI]
UI	④ clicks "Save Score" ↓	[API instructor called]
API layer	⑤ Service is called with data ↓	[Access checked, maintenance mode check]
Service layer	⑥ Calls Data helper to write the ERP DB ↓	[Data writes / updates grade table]
UI	⑦ Displays success message to instructor & refreshes the gradebook view.	

② Maintenance Toggle. (Admin)
